Unknown Candidate 2 (Score: 0.48)

Candidate Name: Unknown Candidate 2

Analysis: ✓ Strengths:

- The candidate has some experience in Python, which is a crucial skill for the job.
- The candidate has some knowledge of statistical analysis, which is a preferred skill.
- The candidate has some experience with data visualization, which is a preferred skill.

X Missing Qualifications:

- The candidate lacks strong skills in Scikit-learn, TensorFlow, and PyTorch, which are essential for the job.
- The candidate lacks experience in NLP, LLMs, and GenAI, which are preferred skills.
- The candidate lacks experience in SQL (Spark/Hadoop/ETL) and cloud platforms (AWS/GCP/Azure), which are required for the job.

↗ Recommendations:

- The candidate should focus on upskilling in Scikit-learn, TensorFlow, and PyTorch to become proficient in data science.
- The candidate should take online courses or attend workshops to gain hands-on experience in NLP, LLMs, and GenAI.

Unknown Candidate 3 (Score: 0.37)

Chu-Hsiang Wu (Score: 0.27)

Sagun Pandey (Score: 0.25)

Candidate Name: Sagun Pandey

Analysis: ✓ Strengths:

- The candidate has some experience in statistical analysis, which is a valuable skill in the field of data science.
- The candidate has a basic understanding of data visualization, which is a preferred skill in the job description.
- The candidate has some education in a relevant field, which provides a foundation for further learning.

X Missing Qualifications:

- The candidate lacks strong skills in Python (Scikit-learn, TensorFlow, PyTorch), which is a mandatory requirement for the job.
- The candidate does not have experience in NLP, LLMs, GenAI, which is a preferred qualification for the job.
- The candidate does not have experience in cloud platforms (AWS/GCP/Azure), which is a mandatory requirement for the job.

↗ Recommendations:

- Resume Ranking System
- The candidate should take online courses to improve their skills in Python (Scikit-learn, TensorFlow, PyTorch) and cloud platforms (AWS/GCP/Azure).
 - The candidate should focus on gaining experience in NLP, LLMs, GenAI, and data visualization (Tableau/Power BI) to increase their chances of getting hired for the job.

Aaditya Vijay Hirurkar (Score: 0.23)

Candidate Name: Aaditya Vijay Hirurkar

Analysis: ✓ Strengths:

- Experience in statistical analysis
- Familiarity with data visualization tools such as Tableau/Power BI
- Basic understanding of cloud platforms (AWS/GCP/Azure)

✗ Missing Qualifications:

- Lack of hands-on experience with deep learning frameworks like Scikit-learn, TensorFlow, PyTorch
- Limited knowledge of NLP, LLMs, GenAI
- Inadequate skills in SQL, specifically in Spark/Hadoop/ETL

➤ Recommendations:

- Take courses or attend workshops to gain expertise in deep learning frameworks like Scikit-learn, TensorFlow, and NLP, LLMs, GenAI
- Focus on developing skills in SQL, specifically in Spark/Hadoop/ETL, to improve overall data manipulation capabilities
